

EQUINE CannaDrops

Healthy Hemp Pet Company Equine CannaDrops™ offer animal owners, caretakers, and clinicians a more flexible and cost-effective way to administer larger doses of PCR hemp oil. This product is small batch and produced with care in the hills overlooking the Salt Lake Valley. Each bottle contains 1600 mg of USDA certified organic PCR hemp oil.

Recommended Use

Shake well before use. Use 20 – 25 mg PCR hemp oil once or twice daily as needed, or as directed by your veterinarian. One drop contains 1.15 mg PCR hemp oil, and one dropper pinch contains approximately 20 mg PCR hemp oil.

Description

Like all of Healthy Hemp Pet Company products, Equine CannaDrops contain no gluten, no fillers, no chemicals, no fragrance and are cruelty-free. Simply two natural ingredients: coconut oil and PCR hemp oil, with no inactive ingredients.

WHAT MAKES US DIFFERENT?

PREMIUM INGREDIENTS

We proudly use USDA certified organic full-spectrum hemp oil grown in Colorado, using the latest in vapor distillation to maintain chemical free hemp oil.

Our premium ingredients are USA sourced, with the exception of green-lipped mussels from New Zealand and USDA organic full-flower turkey tail mushrooms from Canada. Both are sourced elsewhere to maintain the highest quality possible.

Our formulas are grain-free without gluten, solvents, pesticides, soy, fragrances, dyes, or additives.

SMALL BATCH BUSINESS

Established 2014. In this young industry, there aren't many companies that have been doing this as long as we have. We are invested in providing excellent customer service! You can get a hold of us at woofwoof@HealthyHempPet.com

We know that hemp has intense cultural and political stigma, and we're proud to work towards educating pet owners about its benefits and doing our part to help further the science supporting it.

We offer personal sales training to support our retail stores.

All products are made in USA.

INDUSTRY EXPERTS

Proud members of the National Animal Supplement Council, an industry working tirelessly to help regulate the pet health market.

Our products are formulated under the direction of veterinarians.
