Our Hemp Pet Products:

Healthy Hemp Pet Company responsibly sources all raw ingredients for our pet health products. It all starts with organically grown hemp sourced from Colorado. From there our hemp makes We proudly partner with a processor who uses a proprietary Vapor Distillation™ extraction method. This method ensures that our product is processed with only heated air, and is completely chemical free. All of our products contain less than .03% THC and are completely non-intoxicating. Our Immune Supporter line contain USDA Certified Organic Turkey Tail Mushroom, which may help support immune function.

Healthy Hemp Pet Company has a wide range of products to choose from. We strongly believe that hemp products can help all your pets! Our pet health product line is comprised of:

- CannaDrops™ are great for fast acting results via a sublingual application, and come in salmon or coconut flavors.
- CannaDrops™ Immune Supporter is great for pets with immunity health needs, such as cancer.
- Equine CannaDrops™ are a great option for trailer anxiety, occasional stiffness, and pain treatment in horses.
- CannaNatural™ is great for movement/joint concerns, and situational anxiety.
- CannaCrush™ is great for movement/joint concerns, older pets, felines, and can be used as a food topper.
- CannaCrush™ Immune Supporter is great for movement/joint concerns, older pets, felines, and pet with immunity health concerns, such as cancer.
- CannaBalm™ is great for skin care concerns, wounds, and treating hotspots.
- CannaSpray™ is great for oral care concerns, bad breath, and to support gum tissue health.

All of Healthy Hemp Pet Company's raw ingredients undergo rigorous testing to ensure that only the highest quality ingredients make it into our products. Our third party raw ingredient Certificates of Analysis are available on our website.

Healthy Hemp Pet Company products are available at the finest pet retail locations across the country, and can also be purchased directly on our website.

Company History:

Our story starts with our founder, Dave and his Airedale, Mya. Although Dave got Mya from a reputable breeder it became abundantly apparent from a young age that Mya was having a hard time keeping up with her litter mate, Che. Mya went to the veterinarian and hip dysplasia was the diagnosis. Faced with a decision between non-steroidal medication and invasive surgery, or finding a more natural solution Dave jumped on the latter. He furiously vetted the then sparse hemp for pets market. None of the products on the market met with Dave's unwavering standards. It became his mission to create a premium hemp product for pets that vastly exceeded the quality standards of the industry, and most importantly could help Mya. Dave's mission for his pet blossomed into Healthy Hemp Pet Company, and his unwavering quality standards continue to serve as our guiding light.

Mission:

Healthy Hemp Pet Company: A leader in organic PCR hemp oil pet health products and market place transparency. We aim to provide pet owners, retail stores, and clinicians pet products to treat animals holistically, giving them the option to forgo hash pharmaceuticals.
