

Recommended Starting Dose for Healthy Hemp Pet Products

When introducing hemp-based wellness products to your pet, it's essential to start with the right dosage to ensure optimum benefits. We recommend beginning with **1 mg of full-spectrum hemp oil per 10 lbs. of your pet's weight**. This dosage generally works well for most pets. However, some pets---especially those with higher energy levels---may require more. Research conducted with Purdue University confirms that it is safe to administer up to **4 times the recommended starting dose**, equating to **4 mg per 10 lbs. of your pet's weight**!

CannaDrops™ (Salmon and Coconut)

Dosage Guidelines for Pipette:

- 1.0 ml = 13.3 mg
- 0.75 ml = 9.9 mg
- 0.5 ml = 6.6 mg
- 0.25 ml = 3.3 mg

Dosage by Pet Weight:

- 10 lbs. = 1 mg (3 drops)
- 20 lbs. = 2 mg (6 drops)
- 30 lbs. = 3 mg (9 drops)/ 0.25 ml
- 40 lbs. = 4 mg (12 drops)
- 50 lbs. = 5 mg (15 drops)
- 60 lbs. = 6 mg (18 drops)/ 0.50 ml
- 70 lbs. = 7 mg (21 drops)
- 80 lbs. = 8 mg (24 drops)
- 90 lbs. = 9 mg (27 drops)
- 100 lbs. = 10 mg (30 drops)/0.75 ml

CannaNatural™ Biscuits

Each biscuit contains **2 mg of full-spectrum hemp oil**!

Dosage by Pet Weight:

- 10 lbs. = 1/2 biscuit (1 mg)
- 20 lbs. = 1 biscuit (2 mg)
- 30-40 lbs. = 2 biscuit (4 mg)
- 50-60 lbs. = 3 biscuit (6 mg)
- 70-80 lbs. = 4 biscuit (8 mg)
- 90-100 lbs. = 5 biscuit (10 mg)

These recommended dosages provide a helpful guide to safely and effectively support your pet's health using Healthy Hemp Pet Products. Always consult with your veterinarian to tailor the dosage to your pet's specific needs. Questions or suggestion? Email us at woofwoof@healthyhemp.pet.com!
